PROFESSIONAL SUMMARY

Frontend Developer with nearly 7 years of professional experience building responsive web applications using JavaScript (ES6+), HTML5, and CSS3. Strong practical background in developing reusable UI components, integrating REST APIs, performance optimization, and cross-browser debugging using Tailwind CSS, Stimulus, and Hotwire/Turbo. Proven track record contributing to enterprise applications, digital banking solutions, and an AI-powered learning management system.

TECHNICAL SKILLS

Core Web Technologies: JavaScript (ES6+), HTML5, CSS3

Frontend Technologies: Tailwind CSS, Stimulus, Hotwire/Turbo, ViewComponent, Sencha Touch

APIs and Backend Exposure: REST APIs, Ruby on Rails

Development Practices: Responsive Web Design, UI Debugging, Cross-Browser Compatibility, Reusable Components, Performance Optimization, Code Reviews

Tools & Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

Software Engineer | **Instruo, Kochi** — July 2024 – Present

- Built and maintained responsive, accessible web interfaces and course-authoring features using JavaScript, HTML5, and Tailwind CSS.
- Developed modular, reusable UI components using Stimulus and Tailwind CSS, reducing boilerplate across team deliverables.
- Integrated RESTful APIs for course management workflows, interactive dashboards, and microlearning modules.
- Conducted frontend code reviews and paired debugging to ensure design fidelity and cross-browser consistency.
- Collaborated actively with backend engineers and product designers in Agile sprints to ship user-facing features on schedule.

Software Engineer | **Brillio Technologies, Bangalore** — November 2019 – June 2022

- Engineered client-facing web applications using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Built modular UI components adopted across multi-tenant enterprise web suites, accelerating sprint delivery cycles.
- Profiled critical user flows and resolved DOM performance bottlenecks to improve interface responsiveness.
- Managed code releases and branch workflows using Git in a distributed Agile development environment.

Software Engineer | **MobME Wireless Solutions, Kochi** — July 2017 – August 2019

- Delivered responsive web and hybrid mobile application interfaces from design mockups using JavaScript, HTML, and CSS.
- Implemented and executed UI debugging routines and manual checks to ensure defect-free releases across devices.
- Managed version control and collaborated on feature updates using Git workflows.

SELECTED PROJECTS

AI-Powered Learning Management System (Instruo)

Technologies: JavaScript, HTML5, Tailwind CSS, Hotwire, Stimulus, Ruby on Rails

- Engineered responsive, interactive user interfaces for an enterprise LMS and course-authoring studio.
- Built reusable frontend components and integrated REST APIs for real-time dashboards and learner onboarding.

McAfee Consolidation

Technologies: HTML5, CSS3, JavaScript, UI/UX

- Contributed to the frontend redesign and consolidation of McAfee's web presence for high-traffic assets.
- Implemented responsive layouts and resolved cross-browser rendering inconsistencies across global viewports.

FedMobile (Federal Bank)

Technologies: JavaScript, Sencha Touch, Eclipse

- Developed secure, responsive digital mobile banking UI screens in accordance with banking workflow standards.
- Collaborated closely with frontend and integration teams to deliver timely features adhering to Agile milestones.

BMS Alexa (Bristol Myers Squibb)

Technologies: Alexa SDK, JavaScript / TypeScript

- Integrated Alexa voice interactions within the enterprise BMS ecosystem to leverage public and private Alexa skills.
- Created technical specifications and supported front-end interaction mappings for voice-assisted workflows.

EDUCATION

B.Tech in Computer Science and Engineering — 2012 – 2016

Rajiv Gandhi College of Engineering & Technology
